# ASK? GREENPLY

**1800-103-4050**

[www.greenplyplywood.com](http://www.greenplyplywood.com)

---

For most home-makers, getting any new furniture made begins and ends on a conversation with the carpenter. A few cosmetic words about design, colour, and size are exchanged and the nitty-gritties of plywood selection and construction are left to the craftsman. The consumer remains more or less unaware of the integrity of the materials used in a piece of furniture that will become a part of their home, a potential fire hazard, susceptible to termites, or worse.

The overall aim of the Ask Greenply campaign is to provide a resource to practically anyone who is working with, or is interested in plywood. Greenply believes, that the best customers are the ones who are well informed. That's why we're giving you the tools you need to understand and address your home requirements. With this brochure, you will be empowered to decide which product works best for you and make informed decisions about every critical purchase.

Still got questions? Then simply Ask Greenply.

Your house is a sacred space. It's where you go to relax, recuperate, find yourself and connect with your loved ones. In that sacred space, every book, every plate, every picture, is an extension of you and deserves only the best treatment.

By selecting the best plywood for your house, you celebrate all the precious objects in your life that enliven the **spaces** you occupy. Turning your house into a home.

- 19 mm
- 25 mm

### PRECAUTIONS TO BE TAKEN

Always store Greenply Plywood in well ventilated and dry places to prevent from any fungus and insect attack.

Store properly in horizontal stacks on flat level to prevent from warping, bending & twisting.

Please do not keep in extreme heat & sunlight to prevent from discolouration & other damages.

Use good quality synthetic resin adhesive for proper bonding of Greenply Plywood with decorative veneers.

Use fine toothed cross cut saw for sawing/cutting of Greenply Plywood.

Due to risk of termite infestation from soil, avoid contact of Greenply Plywood with soil.

Green Club and Green Club Plus Plywood should not be used with other varieties of plywood, blockboard or similar panel products. It is to be used along with components of solid wood timber that are treated with fixed-type preservative chemicals.

MR = Moisture Resistant

BWR = Boiling Water Resistant

BWP = Boiling Water Proof

### The Mark of Excellence

At Greenply Industries, we have always focused on providing the best quality products to our consumers. We wanted to address their ever-changing need for plywood to make interiors look beautiful. Taking this forward, we have introduced the advanced Quadra Pro technology that will help produce flawless plywood, boards and doors that ensure uniform thickness, smooth surface, maximum precision and greater strength.
